

Towada-City cherry-blossom's map

Kanchogai Street (Koma-kaido)

This street is selected top 100 Roads in Japan. Another name: Koma-kaido. There are cherry and pine trees along the road which the length is about 1.1km. And greet the full bloom, you can enjoy the spectacular contrast between pink cherries and green pines. In addition, it is also one of the fun to see the collaboration with 26 art works and cherry trees. Please enjoy the cherry blossoms from different perspective and angle-scene, such as light-up cherry blossoms at night and art works on the night, and the view from the fifth floor lobby at annex of city office.

Story of cherry tree in Towada

The age of Someiyoshino is normally 60 to 70 years. Through careful pruning of trees which are trimmed before blooming and after the fallen, it can bloom even passed 80 to 90 years.

In addition, flower color of cherry blossoms is determined by the cold of winter.

What bloom can we see this year...

Story of Towada and horses

Towada City that is known as a production area of Nanbu-koma from ancient times which the army charger bureau Aomori branch office was established in the Meiji era, and then changed with the charger replenishment part Sanbongi branch in 1896, flourished as a horse production. Traces of the road from the main gate to the charger replenishment part Sanbongi branch is now Kanchogai Street. Another name is Koma-kaido. That is the horse is the symbol of prosperity in Towada.
